

Petra Schmöller is a coach, trainer and consultant. She has worked for many years both nationally and internationally in the area of leadership development. With immense passion, she combines psychological and business know-how to champion both corporate and individual development.

Profile

Dr. Petra Schmöller graduated with a PhD in Business Administration from the Graduate School in Leipzig. Her career there had started as a research assistant. In 2002 she moved to Volkswagen Coaching GmbH as project manager and trainer, making a significant contribution by virtue of her excellent managerial and psychological skills. One of her greatest experiences at Volkswagen was leading a global project for cultural change on behalf of the board. During her time there, she focused on leadership development training and coaching, team development, and leading the qualification program "Economic Value Added" for top and senior management alike. Petra has expanded her training, organizational development, and coaching skills through various courses and through her own experience as a trainer, project manager, and deputy department head. Since 2006 she has been working as an independent trainer and coach. She specializes in leadership development and training as well as executive coaching.
